

Stains and Dirt are Child's Play...
when you have Grout Boost® stain protection!

GROUT
Mix with grout for maximum stain protection
BOOST

Description

Grout Boost® stain resistant grout additive mixes with cement-based grout in place of water when grout is installed to provide resistance to water and oil-based grout stains.

Key Benefits and Features

- *Repels dirt and resists stains*
- *Mixes in place of water with any standard portland cement grout*
- *Grout never needs sealing*
- *Does not affect grout color*
- *20 year limited warranty*
- *Maintains or enhances the performance of major grout brands, as confirmed in independent lab testing.**

Save time and boost profits without the hassle of sealing!

*Visit www.groutboost.com for independent test results.
